Re: Status on Gerald M. Park, Little Gem 66 1 & 2, S/023/038, (UTU-070706), Juab County, Utah

Dear Mr. Cox:

Thank you for your letter received in this office April 27, 1995 informing us that you will be closing out Gerald Park's file for the Little Gem 66 1 & 2 Project located in Section 18, T14S, R2W, Juab County, Utah. Your file number on this project is UTU-070706.

Mr. Park submitted his 1994 annual report to this office which stated that hand work was being done in the quarry and there was .05 acres of disturbance. The annual report also stated that it was located in Section 19. We wondered at the time if the Section description was an error. We need to inspect the site and if the work is indeed located in Section 19 instead of 18, then Mr. Park will need to submit an amendment to his original notice.

The Division will not close out our file for this project until an inspection is performed to confirm compliance with the Utah Mined Land Reclamation Act. Thank you for your cooperation in submitting your information to us.

Sincerely,

Tom Munson  
Reclamation Hydrologist
